What is the Southeast Stormwater Association?

The Southeast Stormwater Association was created in response to the ever-increasing demand for information on stormwater management and finance. Our boundaries are co-terminus with those of EPA Region IV and include the states of Alabama, Florida, Georgia, Kentucky, Mississippi, North Carolina, South Carolina and Tennessee. With a primary focus on services to stormwater professionals in city and county governments, membership is also available to those in state and regional governments, the private sector, non-profit organizations and academia.

Our Purpose is...

- To conduct training and educational programs such as workshops, seminars and conferences for professional staff and elected officials.
- To research, compile and distribute information about stormwater management, flooding, best management practices and policies, water quality, and the creation/operation of stormwater utilities and other financing mechanisms.
- To monitor the decision-making processes of regulatory agencies in the region as they relate to the interests of the membership.
- To promote and enhance the effective management and operation of stormwater management systems.

What are the benefits of joining SESWA?

SESWA is dedicated to stormwater professionals and exists to increase local government's capacity in stormwater management, finance and regulatory compliance throughout the southeast. The basic purpose of the new organization is simple — to help stormwater professionals in both the public and private sectors avoid having to “reinvent the wheel” each time a new project or initiative is undertaken. Additional benefits include:

- Training and Education
- Information Sharing
- Newsletters and other Written Communications
- Website and List-Serves
- Surveys of Stormwater Utilities and BMPs
- Technical Assistance
- Improving Intergovernmental Cooperation
- Developing Model Ordinances
- Educating City/County Commissions on Stormwater Issues
- Providing an Active Line of Communication and Interaction with EPA Region IV
- Networking
- Public Information Campaigns

Who is a Member of the Southeast Stormwater Association?

- Local Governments including cities and counties from Alabama, Florida, Georgia, Kentucky, Mississippi, North Carolina, South Carolina, & Tennessee
- Non-profit corporations or associations
- State, sub-state, regional and federal governmental entities
- For-profit engineering, environmental, scientific, management or financial consulting firms
- Institutions of higher learning

How do I become a member?

Organizations join SESWA. All employees of the organization are included in the membership. To become a member, the primary point of contact for the organization should complete the enclosed membership application. The application may be faxed or mailed back to SESWA along with the dues payment.

For more information regarding SESWA or the benefits of membership, please contact us:

Dues Structure

Local Government Members

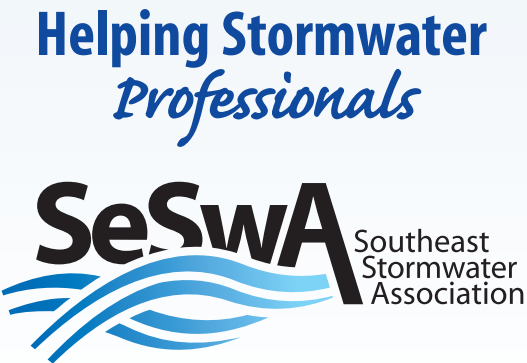

Dues are \$200 plus \$0.005 per capita. Population data is taken from the most recent census data. Cities are calculated based on total population, and counties are calculated based on the total population of the unincorporated area. There is a dues "cap" of \$1,000 per organization per year.

Associate and Private Sector Members

Dues are based upon the number of professional employees in the stormwater, utilities, or related environmental sciences that are employed in the organization within the southeast United States. Please use the following table to determine the dues amount for your organization.

Number of Employees	Dues Amount
0-11	\$200
11-35	\$350
36-99	\$600
100+	\$1,000

SESWA's fiscal year begins July 1st. Members joining after the end of the first quarter pay a prorated amount based upon the number of months remaining in the fiscal year. However, dues cannot be less than \$200 per year.

Membership Application

Please have the primary point of contact complete this form and return it to the **Southeast Stormwater Association • P.O. Box 10530 • Tallahassee, FL 32302**
